Leaf
Debris **Snow Roof Rake**
Assembly Instructions

Tools Needed for Assembly:

- 7/16" wrench (two)

Parts Shipped with Unit:

- Head
- Bolt bag with braces
- 3 Handles (42" bent, 82" smooth, 80" fluted with grip)

Head Assembly:

1. Assemble the braces to the head using the two smallest 5/8" bolts and loc nuts.
2. Insert rib of rake head into slot on end of bent handle. Align holes and insert small 1-1/4" bolt.
3. Align braces with handle and insert longer 1-1/2" bolt. Use wrenches to tighten all loc nuts, being careful **NOT** to over tighten, **DO NOT** crush handle! Over tightening may result in crushing the handle, and will decrease the useful life of the handle.

Handle Assembly:

1. Insert smooth middle section of handle into bent lower handle until snap pin engages in hole.
2. Insert fluted top section of handle into middle section of handle until snap pin engages in hole.

Instructions for Optional Extension Handle:

1. Remove fluted section of handle with grip from rake.
2. Insert the end of fluted extension with splice into the smooth middle section of the rake handle until the snap pin engages in hole.
3. Replace the fluted section of handle with grip into the end of the extension handle until the snap pin engages in hole.

WARNING: This product conducts electricity. Contact with electrical wires or equipment can result in serious injury. Disconnect power from roof and gutter tape before using this product.

FULL WARRANTY

All Seymour Midwest products carry a full warranty against manufacturer defects in quality and workmanship. Products which have been abused or worn out from normal use are excluded from this warranty. We reserve the right to replace or issue credit on an individual basis.
