Mini Landscape Rake and Horse Trailer Rake Assembly Instructions

Tools Needed for Assembly:

- 7/16" wrench (two)

Parts Shipped with Unit:

- Head
- Aluminum handle with grip (not shown)
- Push/Pull braces (set of 2)
- Bolt bag for braces

Assembly Instructions for Handle:

1. Slide the slotted end of the handle over the center hole on the aluminum head.
2. Align holes and insert middle sized bolt. Do not tighten until all hardware is in place.

Push/Pull Brace Instructions:

1. Align holes of flat end of braces with holes on rake head, as shown, and insert the two shortest bolts.
2. Align holes of bent end of braces with the handle, as shown, and insert the longest bolt.
3. Start all lock nuts on bolts. Use wrenches to tighten, being careful not to over-tighten. Over-tightening may result in crushing the handle, thereby compromising its strength.

FULL WARRANTY

All Seymour Midwest products carry a full warranty against manufacturer defects in quality and workmanship. Products which have been abused or worn out from normal use are excluded from this warranty. We reserve the right to replace or issue credit on an individual basis.
